**Cooperation for mutual benefit, a survival strategy very common in natural systems, is one that humanity needs to emulate.**

EUGENE ODUM

# Interact and cooperation actions

Interact Programme is one of the main actors providing continuous support to cooperation actions in partnership with DG REGIO, since the period 2014 – 2020.

We ensure that with the development and maintenance of different tools and services.

# Tools for cooperation

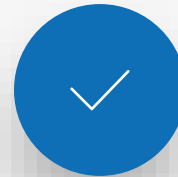

In the last few years, Interact has developed a wide specter of tools to support the cooperation actions, all of the deriving from the needs of the stakeholders and in coordination with DG REGIO.

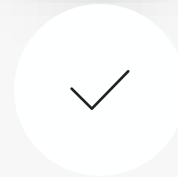

Online **repository of knowledge**:

# Guidelines on Cooperation under IJG goal 2020+

The objective of the guidelines is to inform the OPs under the IJG goal about the possibilities for cooperation actions in 2021-2027 and to contribute to improving the efficiency of territorial development.

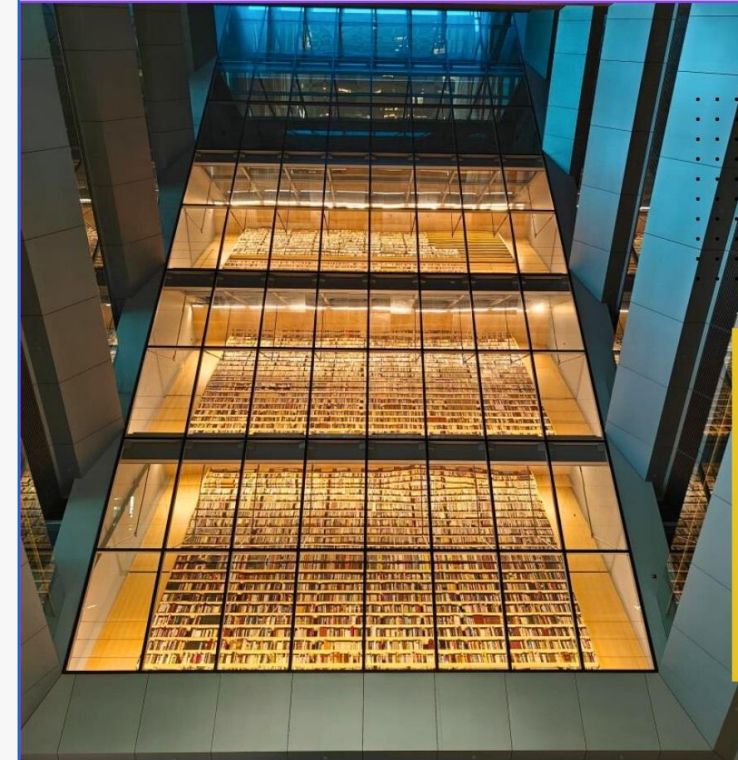

# Interact brochure “Cooperation in IJG goal programmes”

The brochure aims to provide a summary of the tools and services of Interact for supporting cooperation actions. It also serves as a compendium of good practices and projects from different programmes and initiatives.

# Support in designing your cooperation actions

**Introduction and guidance** in the sea of possibilities for cooperation actions and identification of possible approaches for your specific case.

Help in **setting up the management system and other administrative/planning arrangements** related to the form of cooperation actions call, choosing the right type and degree of cooperation, etc.

**Providing examples and contacts** with ongoing cooperation actions, facilitating the exchange with practitioners.

**Assistance in partner search** and pairing of cooperation actions partners.

# Database with programmes under the IJG goal

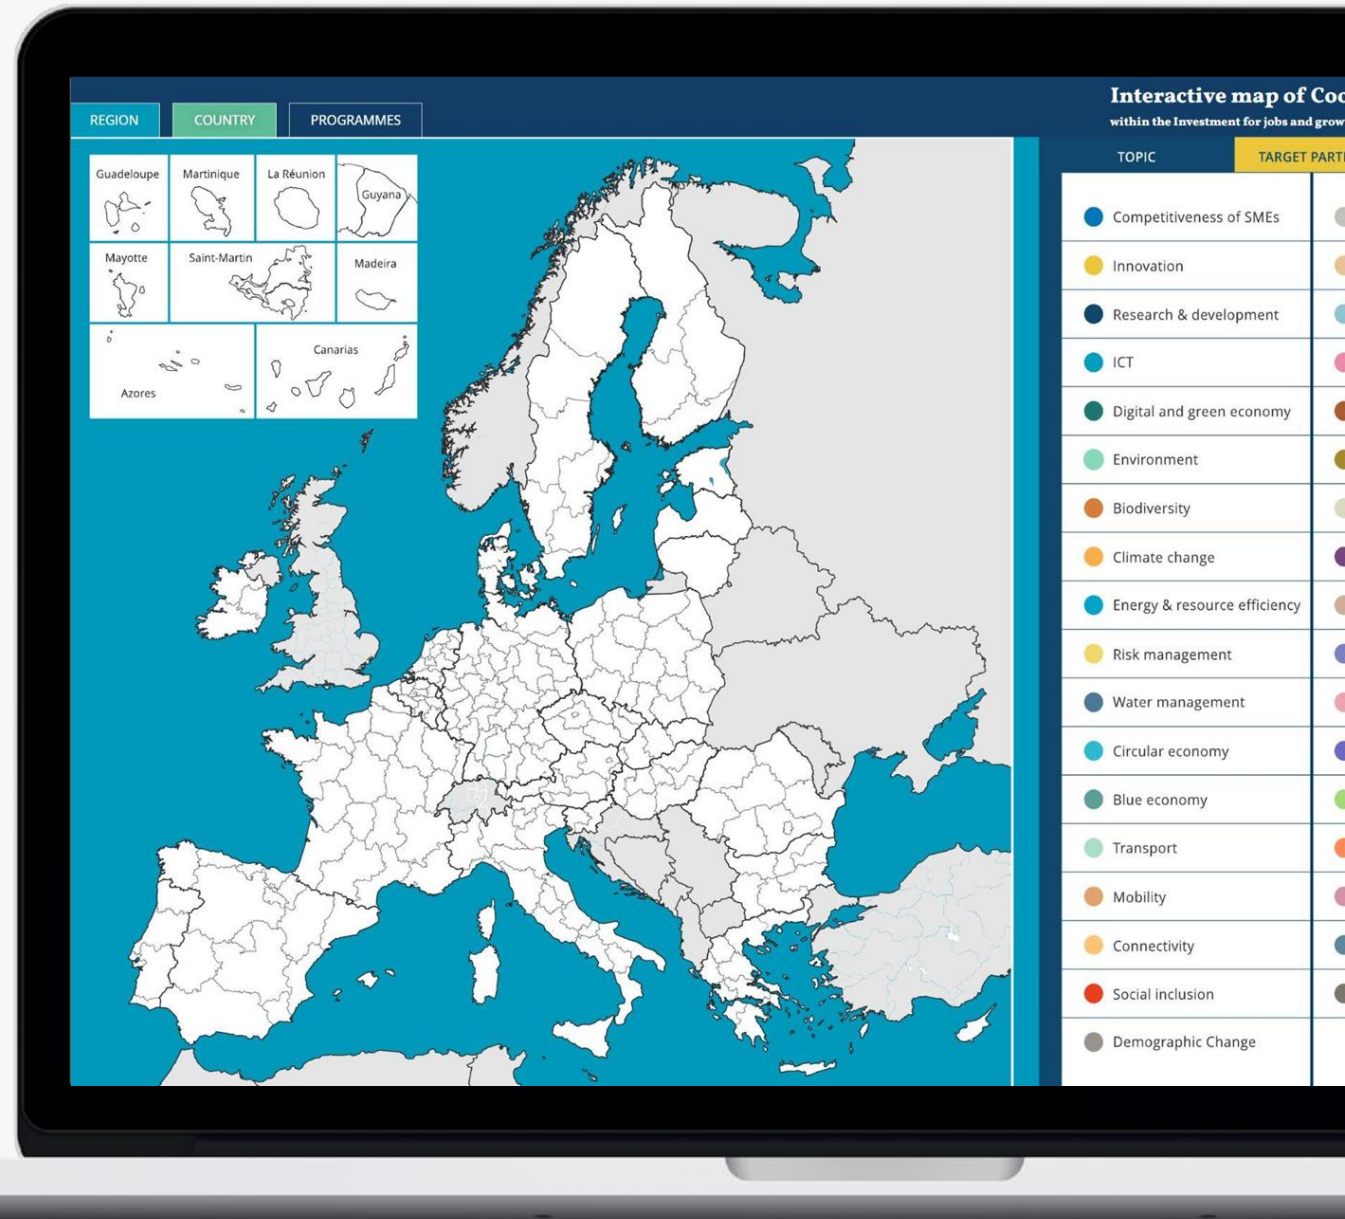

The **databases for the IJG goal programmes** for the programming periods 2014-2020 and 2021-2027 are available online, part of the Interact repository of knowledge. They include a comprehensive list of all mainstream programmes, with details on the scope and approach for cooperation actions.

The databases were used as a source of information for the production of the map tools. They complement each other more complex purposes like thematic analysis, mapping, distributions, etc.

# Map tool 2021-2027

- Simplistic map;
- Highlighted key categories of cooperation with automatised search option;
- Search option at the level of NUTS III regions and MS.

# Criteria for cooperation search options

One of our main efforts is to facilitate the search process and allow for better, custom made inquiries, including the search options:

- Programme title;
- Country.
- NUTS III region.
- Topic of cooperation actions;
- Scope of partnership needed.

# Time for group work

1. Please test the map tool by searching your desired partner in the thematic field of interest of your programme.
2. When you receive the results of the search, debate on them with your colleagues on the table.

Get to know the partners  
around the table!

# Thank you for being here!

Your opinion matters to us.

Please share with us your immediate observations from the map tool and what more you need to support your partner search efforts.
