How can Interact support you?

This survey collects information on the needs and expectations of your programme/institution with regard to Interact services. Your input will feed into the process of designing the products and services we will offer.

- What do you foresee will be the main areas of your work, where we could best support you?
- What types of services would you welcome?
- How can we strengthen our current offerings?
- What can we do to ease access to our services and products for your programme?

This survey remains open. We will consider your input when developing our work plan (September) and when revising it (April) each year.

Should you have any questions, please do not hesitate to contact Evasen Naidoo at evasen.naidoo@interact.eu
