Multi-Programme Coordination Mechanism

- ✓ The Mechanism wants to contribute to the **embedding of current and future strategies** in the Mediterranean, stemming from the request of the Commission to improve complementarity and synergies between Interreg programmes
- ✓ A pilot was carried out on in 2022/2023 on a topic transversal to all policy objectives: **sustainable tourism** in its wider understanding has been identified as a first specific field of experimentation, while new fields of implementation could be embedded
- ✓ Link to **capitalisation** activities is underlined and focus on **results** achieved is central
- ✓ The governance of the Mechanism foresees a light but structured coordination that, while respecting the governance and operational prerogatives of each Programme, encourages a reinforced collaboration and the achievement of common goals

Multi-Programme Coordination Mechanism

Main challenges:

To **structure the coordination** with other Programmes and initiatives to gather the **best results** achieved by their projects

To **maximize the impact** of the INTERREG Programmes **in the territories of the participating countries** through the respective capitalization experiences

To promote the **synergies** among **different actors working** on the same thematic objectives

Multi-Programme Coordination Mechanism

Main objectives:

Reinforcing the policy **contribution** of each single Programme **by improving the quality and richness** of the existing knowledge related to a specific topic.

Enhancing the impact of **innovative solutions tested at local level**, by creating a **value chain among projects**, thus fostering processes of transferring, scaling-up and mainstreaming

**Pilot
topic**

Sustainable tourism

(other topics may be targeted)

Each programme will **contribute through its previous experience** (thematic projects, clusters etc.)

Action Plan 2024-25 main objectives

Screening

according to common criteria - of the **promising/best results** (flagships) achieved by each programme and sharing for **external public evidence** (stakeholders to be selected by the programmes)

Sharing communication

of the **best selected inter-programme mechanism/thematic projects outputs**

Drafting

of **future shared terms of reference (ToRs) on results** valorisation based on projects':

- joint mapping
- joint peer reviews and monitoring
- joint living labs
- joint evaluations

Transferring

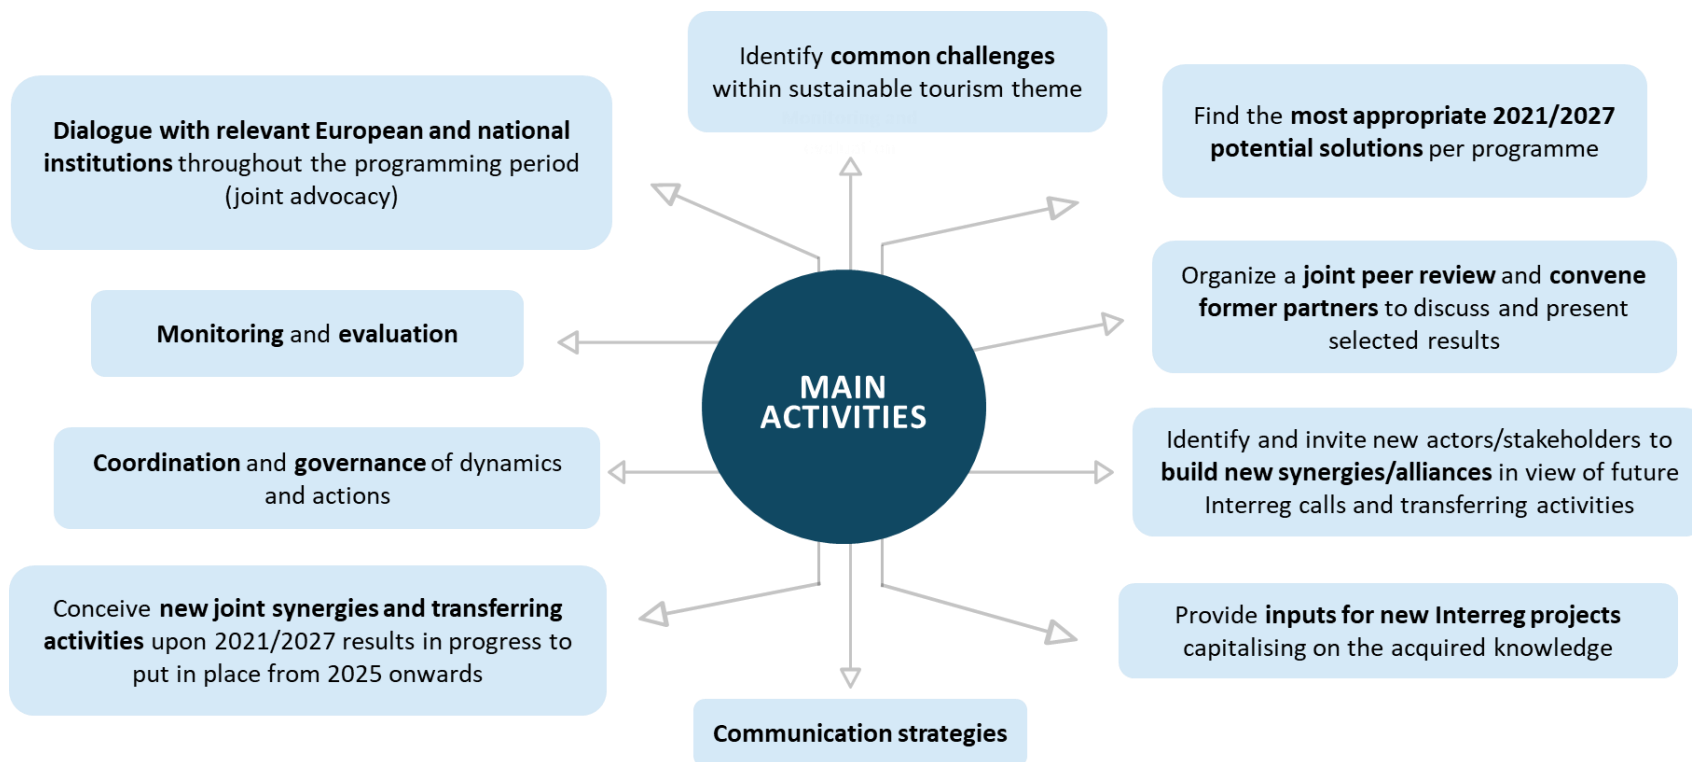

of identified **best joint projects/ practises/ milestones/ final results** towards shared stakeholders /territories

Advocating / disseminating joint outcomes

of the carried-out approach as direct follow-up of the coordination mechanism towards European and national organisms, networks

Main activities 2024-25

Next steps

- ✓ Following a meeting with the **European Commission in Brussels in June 2024**, the **Action Plan was approved by the MCs of the participating Programmes**
- ✓ Ad hoc **communication actions** will be jointly carried out and sustained by the different Programmes through their TA and/or ISO1 activities (joint events, videos, infographics, etc.): COMM WG just started to work on it with the aim of organizing a public event in 2025
- ✓ We will continue to set up **smaller WGs** to work on the different activities
- ✓ Ambition to coordinate **Calls for Proposals** focusing on capitalisation of results in the second part of the programming period (from 2026)
