PROJECTS TO BE APPLIED IN ITALIAN AND SLOVENE

Oltre 500 i partecipanti i workshop del GectGo

Sono oltre 500 le persone che hanno preso parte ai primi due workshop tecnici promossi dal GectGo per supportare la progettazione delle proposte per la Capitale europea della Cultura 2025. A febbraio si sono svolte tre giornate informative, seguite poi dagli incontri più prettamente tecnici che hanno registrato sostanzialmente il tutto esaurito: quasi 150 presenze fisiche e oltre 300 in collegamento online.

L'obiettivo dei workshop era quello di supportare associazioni e privati nella comprensione del bando europeo per l'accesso ai contributi per la realizzazione dei progetti legati a Go!2025, e facilitare quindi il percorso burocratico della progettazione.

LESSONS LEARNT

Small projects – participants are mostly small local associations and small entities, the one that normally are not participating to Interreg standard; those small associations are resulting also more succesful then other types of beneficiaries, which are on the contrary more used in working on standard Interreg. Small projects are oriented to short-term and concrete results, projects shall be structured differently from the standard one.

Assessment – the combination of internal and external experts give the possibility to discuss the proposals and ensure the coherence with the ECOC programme.

Pre financing – it's needed by small private associations/institutions and SMEs, but guarantees are not easy to be obtained. There is a need to find prior an ad hoc agreement with banks and credit institutions to help the access to the pre financing.
