# Exchange Share

Our series of workshops on PO5 is meant to support clarification with Commission colleagues and to foster sharing and exchange among programme colleagues

# Focus on implementation issues

# Questions in the registration

- Are changes in the implementation of PO5 possible?
- What are the roles of local actors in the implementation of a territorial strategy for PO5? What is the role of other programme bodies, including the Monitoring Committee?
- What are the first step for an integrated strategy? What is the role of the private sector? Can a strategy be shared between territories facing the same challenge such as depopulation?
- How the selection of projects that will be implemented within the PO5 will be done and what will be the role of the JS in the selection of the project and their implementation of it?
- The functions of each body involved in the management and control, incl. division of functions between and within each body; management of funds
- Capacity building approaches and arrangements, setting up a PO5 governance project, selection criteria for PO5 projects
- Experience in using PPP (public private partnership); ITI
- Multi-sectoral Integrated Territorial Strategies and Functional Areas

# Work Materials

## Building knowledge

In previous sessions and today we try to provide useful materials as food for thought

### Materials on CLLD

An important source for inspiration; see links and materials from last WS

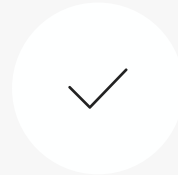

### Selection criteria

Selection criteria for one CLLD area from IT-AT as working materials

### Recent report on Interreg IT-AT

Jean Pierre: floor is yours!

### Kind request

Dear colleagues: All you've developed is worth sharing – please send it over! We would disseminate it ...
