Outlines

The stock-taking review of the TA 2030 has been started and should be concluded by the end of 2024. The overarching objective of the exercise is to give new momentum to the implementation process of the TA 2030. We want to invite you to take part in this process and help us to mobilise the Interreg community for an active contribution.

In this webinar we will meet the drafting team working on the Territorial Agenda (TA) 2030 review. The colleagues from Spatial Foresight will explain us the process and expectable outcomes in more detail, first findings of the survey will be presented.

A key point is to share ideas on and to discuss ways how to integrate the principles and priorities of the TA 2030 better in our work for Interreg programmes.

Objectives

With the event we want to:

- Invite you to join the TA 2030 review process as stakeholder group,
- Learn from and discuss with the drafting team for the review about purpose and scope of the review and the first findings,
- Discuss ways to integrate the TA 2030 principles and priorities better in our work in Interreg.
